

# PRECIOUS CARBON

## RING SIZE GUIDE

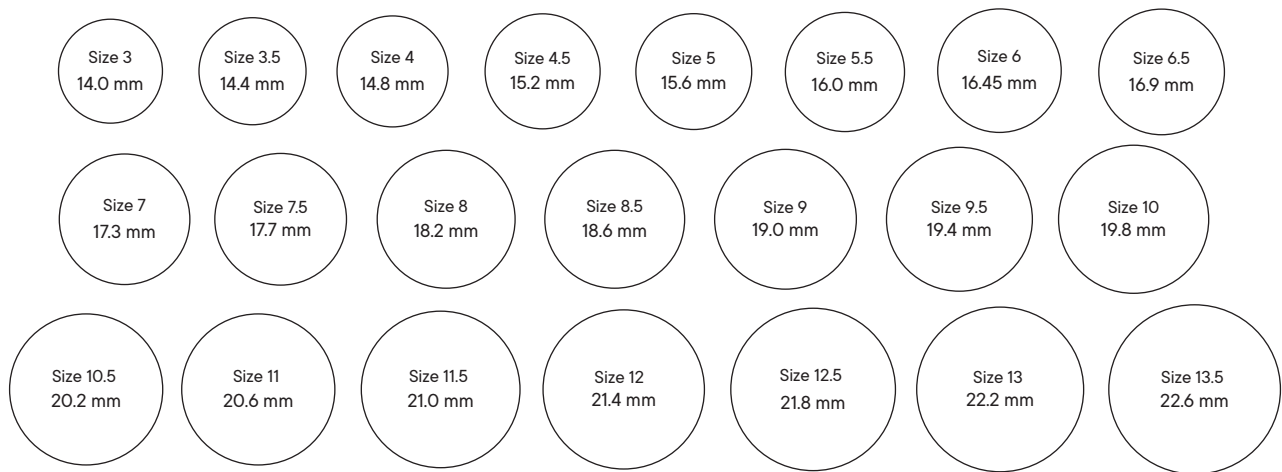

1. Before printing, set page scaling to "None" on your printer's settings.
2. Once printed, measure the bar below with a ruler ensuring it is exactly 6 inches in length.

### A. Find Your Ring Size Using an Existing Ring

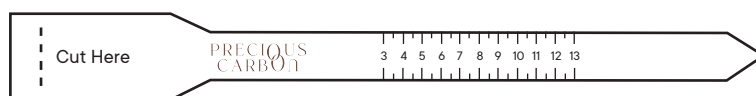

1. Choose a ring that already fits the finger you want to size.
2. Place it over the circles on the chart and match the inside edge of the ring with the circle that fits best.
3. If your ring falls between two sizes, go for the quarter size in between.

Example: If it's between Size 5 and 5.5, pick Size 5.25.

## B. Measure Your Finger with the Cutout Sizer

1. Carefully cut out the finger sizer along the outline and make a small slit where marked.
2. Wrap the strip around the finger you want to measure.
3. Insert the pointed end through the slit with the numbers facing outward.
4. Gently tighten until it fits snugly.
5. The number visible at the slit will be your ring size.
